

DSL-G2562DG ADSL/VDSL Setup via Ipad

- 1) Click on the settings app on your home screen
- 2) Select Wi-Fi from the list on the left
- 3) Select D-Link_2.4G from the list on the right
- 4) When prompted to fill in a password fill in the WPA key from the sticker on the back of your router

- 5) Select <http://10.0.0.2> on the pop up Telkom page

Step 1 of the wizard:

- 6) Make sure your router is connected as per the Quick Installation Guide (QIG) for DSL service.
- 7) Select the interface type: ADSL/VDSL
- 8) Click on [Test] to confirm your connection
- 9) Click on [Next] to proceed

Step 2 of the wizard:

- 10) Click on [Test] to confirm your default PPP account
- 11) Click on [Next] to proceed

Note: If the test fails please contact Telkom support for port recreation/verification

Step 3 of the wizard:

- 12) Select whether the installation is for a new or existing line
- 13) Click on the link: <http://www.telkom.co.za/verifyadsl> for DSL verification

On the Telkom pop up window

14) Continue as instructed on the Telkom Webpage

If you have not received your PPPoE details,

➔ proceed with [Configure your modem with your Telkom Internet account]

If you have your PPPoE details sent to you via SMS, proceed with <http://10.0.0.2>

➔ Click on [Next] to proceed to Step 4

Welcome to Telkom Internet

Let us help you connect to the Internet:

Step 1
If this is a newly installed ADSL line with the self-install option, please [verify this line](#).

Step 2
If you are a Telkom Internet customer
Configure your modem with your Telkom Internet account

For all other customers please use the CD supplied with the modem to complete your Internet setup, or configure your modem using the web interface (e.g. <http://192.168.1.1> or <http://10.0.0.2>), or consult the information on the modem label.

Step 4 of the wizard:

15) Fill in your PPPoE account details received from Telkom via SMS

16) Click on [Next] to proceed

Note: This should have been sent to you in an SMS and should end with @telkomsa.net

If you do not have these details please contact Telkom support to retrieve your details

D-Link DSL-G2562DG Home Gateway

Quick Setup

step1 -> step2 -> step3 -> **step4** -> step5 -> step6 -> step7 -> step8 -> step9

Please enter your Username and Password as provided by your ISP (Internet Service Provider). Click 'Next' to continue.

User Name:

Password:

Confirm Password:

Step 5 of the wizard:

- 17) Click on [Test] to test account
- 18) Click on the [Next] button to proceed

Note: If the test fails, please make sure the correct details were entered on step 4

Alternatively, contact Telkom Support for a password reset

Step 6 of the wizard:

- 19) D-Link modem comes set with unique default WIFI password on both the 2.4 & 5 GHz band for security purposes. The default password can be located on the back of the router.
- 20) You can change the default password for both bands below (minimum of 8 characters)
- 21) or [skip] to leave as default.
- 22) Click on [Next] to proceed.

Note: Write down the passwords somewhere safe as you will need them to connect to your Wi-Fi

Step 7 of the wizard:

- 23) For security purposes, it is strongly advised that you change our default modem login password during the first setup. Default AdminName: admin / AdminPassword: admin
- 24) Fill in new username & password for logging into your router
- 25) Click on [Next] to proceed

Step 8 of the wizard (for VPN customers only)

- 26) If you are subscribed to Telkom VPN Lite's services, enter the details provided below.
If not, click on [Skip] to proceed

The screenshot shows the 'Quick Setup' page for the D-Link DSL-G2562DG Home Gateway. The page title is 'DSL-G2562DG Home Gateway' and it includes language options for '中文' and 'English'. A progress bar at the top indicates the current step is 'step8' out of a total of 9 steps. The main content area contains instructions for Telkom VPN Lite customers and a 'Skip' option for others. Below the instructions are input fields for 'Site Username', 'Site Password', 'Confirm Site Password', and 'Site LAN IP/Netmask'. The 'Site LAN IP/Netmask' field contains a forward slash '/' and a format note '(Format: A.A.A.A/B(A:0-255,B:1-32))'. At the bottom, there are three buttons: 'Back', 'Skip', and 'Next'.

Step 9 of the wizard

- 27) Here you will be able to see a summary of the wizard setup. Click on [Apply] to complete the setup.
You will be taken back to modem login page. You can login to the modem with the details set on step 7 of the wizard.

The screenshot shows the 'Quick Setup' page for the D-Link DSL-G2562DG Home Gateway, now at 'step9'. The progress bar shows 'step9' as the final step. The main content area states 'Setup complete.' and provides instructions on how to use the 'Back' and 'Apply' buttons. A summary table of the configured settings is displayed, enclosed in a red border. The table lists the following settings: Site Username, Site Password, Site LAN IP/Netmask (/), Web Login Name (admin), Web Login Password (admin1), SSID 2.4GHz (D-Link-2.4G), 2.4G WPA Preshare key (572E74CDF761D0E40385), SSID 5GHz (D-Link-5G), and 5G WPA Preshare key (572E74CDF761D0E40385). At the bottom, there are two buttons: 'Back' and 'Apply'.

Site Username:	
Site Password:	
Site LAN IP/Netmask:	/
Web Login Name:	admin
Web Login Password:	admin1
SSID 2.4GHz:	D-Link-2.4G
2.4G WPA Preshare key:	572E74CDF761D0E40385
SSID 5GHz:	D-Link-5G
5G WPA Preshare key:	572E74CDF761D0E40385

If you changed the WiFi passwords as well as the SSID (WiFi name) on Step 6

- 28) Click on the settings app on your home screen
- 29) Select Wi-Fi from the list on the left
- 30) Select the WiFi name that you set on step 6
- 31) Fill in the new WiFi Password you set on Step 6 of the setup wizard and connect

If you only changed the WiFi passwords on Step 6 (D-Link-2.4G and D-Link-5G WiFi names still the same)

- 32) Click on the settings app on your home screen
- 33) Select Wi-Fi from the list
- 34) Select D-Link-2.4G and click on it again
- 35) Select forget this network
- 36) Select D-Link-2.4G again an now fill in the new WiFi Password you set on Step 6 of the setup wizard
- 37) The same process applies to D-Link-5G

YOU ARE NOW READY TO SURF THE INTERNET
