## Fast Mobile Internet and Wireless AC

The Wireless AC750 4G LTE Router lets you connect to your 4G LTE mobile connection with throughput speeds of up to 150 Mbps<sup>1</sup>, giving you the speed you need for fast, responsive Internet access. In addition to this, the DWR-953 uses wireless AC technology meaning that connected wireless clients can reach speeds of up to 433 Mbps<sup>1</sup> and benefit from the enhanced range and reliability of the 802.11ac wireless standard.

## Reliable, Uninterrupted Internet Connection

A Gigabit Ethernet WAN port allows you to attach a DSL/cable modem as the primary or backup link, while auto-failover ensures an uninterrupted connection by automatically connecting to your 4G LTE network whenever the WAN link is lost. The built-in QoS management feature also prioritizes traffic to ensure that the most important data receives optimum bandwidth.

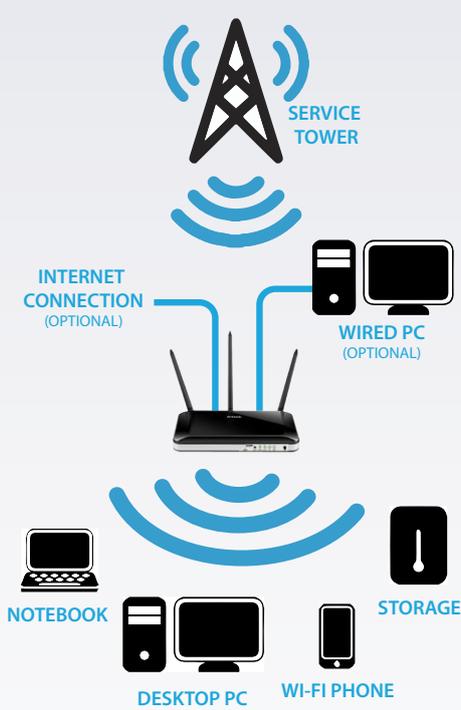

## Easy to Set Up and Use

Set up your network in minutes; the DWR-953 comes equipped with an easy-to-follow setup wizard to get you up and running right away. Older wireless devices such as 802.11g/b clients are compatible with the Wireless AC750 4G LTE Router, helping you get started without issues.

## Secure Wired and Wireless Connections

The DWR-953 utilizes dual-active firewalls (SPI and NAT) to prevent potential attacks across the Internet. WPA/WPA2 wireless encryption keeps your wireless network secure and your traffic safe, stopping unauthorized users from accessing your network.
