# 4G/LTE Mobile Router Connect from **ANYWHERE**

Whether you're traveling, out to meetings, or just need another mobile connection. This pocket router will get you connected.

**GLOBAL BROADBAND**  
4G/LTE broadband connectivity to keep you connected

**LED DISPLAY**  
For Battery, SMS and Wi-Fi status as well as Network type

**LI-ION BATTERY**  
Improved 3000 mAh Li-ion battery for longer connectivity

## 4G Wireless N300 LTE Router

### Fast Mobile Internet

Connect to your 3G/4G mobile connection with fast downlink speeds of up to 150 Mbps and uplink speeds up to 50 Mbps.

### Secure Connections

Industry standard WPA/WPA2 wireless encryption keeps your wireless network secure and your traffic safe.

# Why The Wi-Fi 6?

## NEXT-GEN SPEEDS

The latest Wi-Fi 6 technology for blazing-fast Wi-Fi

## OFDMA

Increased efficiency and lower latency for small data packets

## MU-MIMO

Data to and from the device at once

## 128-BIT WIRELESS ENCRYPTION

The latest in Wi-Fi encryption

## BSS COLOURING

Colour codes your data to minimize signal interference from your neighbour's Wi-Fi

## TEST INTERNET SPEED

Built-in Internet test powered by Ookla to check your connection uplink and downlink speeds

## Lightning Fast Wi-Fi 6 Throughout Your Home

The DAP-X1860 is a portable plug-in wireless extender that boosts your existing Wi-Fi 6 network and rids your home of pesky Wi-Fi dead zones once and for all. Place it anywhere in your home and experience high speed Wi-Fi 6 on all your connected devices.

## Flexible Mesh Choice for Your Home Network

Pair the DAP-X1860 with a compatible D-Link Wi-Fi Mesh router to create a seamless whole-home network built on industry-standard mesh technology that cleverly shares the same name as your existing network and allows you to enjoy a seamless connection throughout your entire home.

**Dual-Band AX1800**  
High-speed Wi-Fi 6 for all your browsing, streaming & gaming

**D-Link Wi-Fi Mesh**  
Works seamlessly with other D-Link Wi-Fi Mesh devices

**Easy Push-Button Setup**  
Simply press the WPS button on your Wi-Fi extender

**WPA3 Encryption**  
The latest Wi-Fi security with WPA3 encryption

<b>USB PORT</b>	N/A		N/A	1x USB 2.0, 1x USB 3.0
<b>ANTENNA TYPE</b>	2x Fixed		2x 5dBi Fixed	2x 5dBi Detachable

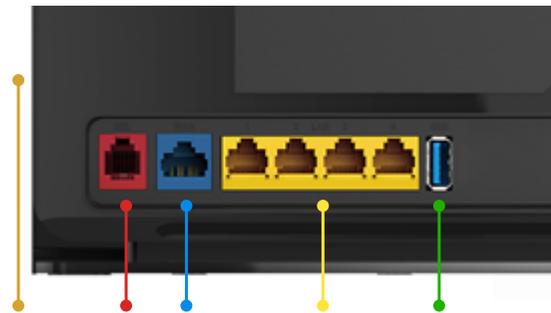

## Multiple Failover Redundancy

The DSL-G2452DG comes with a built-in high-speed VDSL/ADSL modem, and is equipped with a Gigabit Ethernet WAN port for Fibre connectivity, as well as a USB port which supports a 3G/4G mobile broadband dongle.

## Multiple Gigabit Ports

Gigabit Ethernet ports provide high-speed wired connections for up to four PCs or other devices. It's stylish, easy to use, and provide you with a reliable network for today and into the future.

- One RJ-11 xDSL Port
- One 10/100/1000 Gigabit WAN port
- Four 10/100/1000 Gigabit LAN Ports
- One USB 3.0 Port
- One USB 2.0 Port

Multi-Tenant and Role-Based Administration

Traffic Reporting and Analytics

Free-to-Download Network Management Software

Remote Config and Batch Config

Authentication via Customizable Captive Portal 802.1x and RADIUS Server, POP3, LDAP, AD

License-Free Management of up to 1,000 Access Points

Searchable and Auditable Event and Change Logs

Intuitive Interface

Nuclias Connect

## RANGE EXTENDERS

## NUCLIAS CONNECT HUB

## DGS-F1210 Series

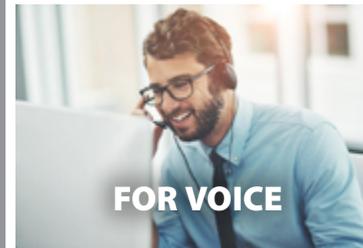

## Power Over Ethernet

Long range PoE+ suitable for devices that are far from power outlets or when users want to minimize the clutter of extra cables as power is supplied via the Ethernet cables themselves.

## VLANs: Stronger Security & Better Traffic Management

Relatively easy to set up, VLANs can be a big boon for your network. They can isolate sensitive areas of your network, keeping them safe from those with malicious intent, or keeping bandwidth open for latency-sensitive traffic such as VoIP.

**POE+**

**Power Over Ethernet**  
Supports both IEEE 802.3at and IEEE 802.3af PoE protocol

**Long Range PoE**  
Maximum distance of 250m for longer range deployment

**Gigabit Ethernet Speeds**  
Take your Ethernet speeds to the next level with Gigabit

\* Long range PoE+ supports a maximum distance of up to 250m in extend mode

\*\* With optional redundant Power Supply Supported by DGS-3420-28PC/52P and DGS-1510-52XMP DPS-700; 370W PoE Power Budget

\*\*\* Required Accessory: 4x M6220-FAN-F, 2x RG-M6220-AC460E-F

**DGS-3130 Series**

## Comprehensive Security

The DGS-3130 Series gives your network the protection it deserves with leading edge security features that handle threats effectively. With built-in IP-MAC-Port Binding, the switches allow administrators to enhance user access control.

## Slash Your Network Downtime

The DGS-3130 Series gives enterprises and organisations a highly reliable network, allowing for maximum business continuity. It has a built-in G.8032 Ring Protection Switching (ERPR) to help minimize recovery times to 50ms

## Manage Network Traffic in a Whole New Way

The DGS-3130 Series implements a rich set of multi-layer QoS/CoS features to prioritize critical network services such as VoIP, video conferences, IPTV, and IP surveillance. With robust features including Traffic Shaping, L2 Multi-cast, Host-based IGMP/MLD Snooping and ISM VLAN, administrators get a whole new way to manage their traffic that fits their needs.

#### Multicoloured LED

Multi-Colored LED light indicates Turbo Mode status

#### Silent Operation

Fanless design means it's suitable for noise-free environment

## Ultra-Fast 10-Gigabit Connection for Home or Office Application

10-Gigabit port for high-bandwidth network uplink or access to a Network-Attached Storage (NAS) device, it's perfect for the multimedia design workplace or advanced home networking setup.

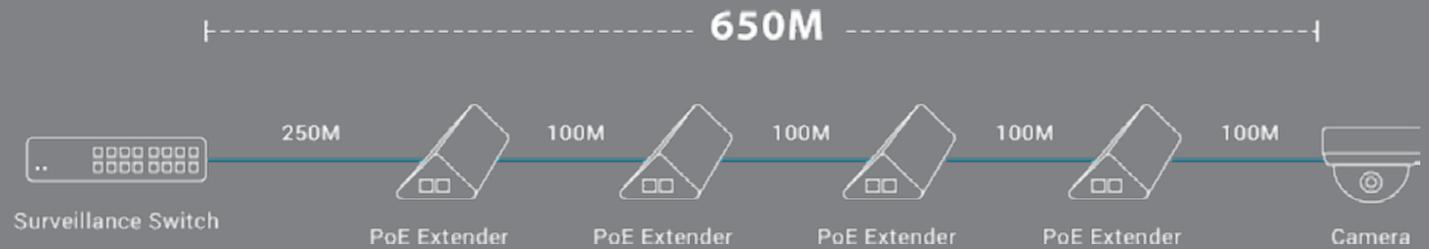

## Protected

The DPE-302GE has D-Link's highest built-in 4kV surge protection, and is also capable of operating in temperatures of up to 60 °C (140 °F), allowing it to be deployed in harsher environments.

## Reach Further

The D-Link range of surveillance switches can be further combined with the DPE-302GE PoE Extender to maximize your PoE camera deployment distance to virtually anywhere, drastically lowering the cost for installing any PoE Ethernet devices. It provides you huge time and cost savings and greater flexibility of endpoint device positioning

\* Please check with your local D-Link customer service for more information. Up to 650 metres connectivity may be affected by cabling quality. We recommend customers to test compatibility before actual physical deployment.

## Designed for Surveillance

The D-Link range of Surveillance switches has a total PoE power budget of up to 250W, with up to 30W on each port meaning it's ready to power your PoE-ready cameras and other devices. Simply connect your PoE supported devices and you've got a capable surveillance network with minimal wiring required. Meanwhile, it has an extended PoE range of 250m, reaching devices further than before. Finally, its Gigabit uplink provides ample bandwidth. This ensures smooth transmission of footage when connecting to Network Video Recorder (NVR) or core switch.

**Large PoE power budget**

**Extended range up to 250m**

**PoE LED Indicators**

**Gigabit Uplink**

## Versatility for a Range of Scenarios

The D-Link range of surveillance switches are not just for cameras, they are also able to support other surveillance-related devices. Simply plug in the devices you need to complete your setup; the switch can then automatically detect what has been connected. It then adjusts accordingly to provide optimal performance. Ideal for a power surveillance with minimal management fuss.
